FLIGHT LINE DAY

The FLM flight got a chance take what they practiced for

time at Person County Airport. They not only marshaled planes but they also learned about airport security and did a lot of FOD walks. FOD stands for foreign object debris.

The cadets had to pretty much be outside in the 100 degree heat to moving airplanes and doing walks and even exploring the flight line.

several days and take it to the field or flight line.

The cadets had a really good

Where is Chuck Norris when you need him?

Dude that is a sweet ride!

THE OI EXAM

Nearing the end of encampment the cadets have to take an exam over all the material covered in their Operating Instructions (OI). The questions range from chain of command, drill, insignia and Civil Air Patrol and Air Force creeds, mottos, and defini-

tions. The cadet that does the best on the test has a good chance of becoming either honor cadet or spirit cadet. So, let the storm

SPECIAL POINTS OF INTEREST:

Menu for Tomorrow: (24JUN)

Breakfast: Eggs

Grits

Biscuits / Bagels

Bacon or Sausage

Orange Juice

Coffee

Lunch: MRE's

Dinner: Taco Casserole

Seasoned Rice

Spice Beans

Dessert

WEATHER FORECAST

DANGER—

Friday High: 97F

Heat Index: 105F+

Partly cloudy, hot, and humid with highs in the mid 90s to around 100. There is a slightly better chance of seeing isolated afternoon thunderstorms this afternoon.

REMEMBER TO HYDRATE!

SEMPER VIGILANS

ALWAYS VIGILANT

LAST FULL DAY SAFETY—

To all attendees of encampment I C/MSgt. Isaac Woolsey give you these words of my philosophy: "There is no such thing as a waste of time." You have all worked hard and there is just a little piece of work left. I am proud to have served at encampment and I hope that all basics, cadet staff, and seniors all feel the same way about their time at encampment. Remember no one is a failure if they keep trying. So far, no basics had to go home this year which is outstanding in and of itself but the thing about this year's encampment is that basics and staff both learned how to work together and obey orders and help each other. The end is near but do not let the sweet taste of victory mess you up. It is not how an individual starts something that counts it is how an individual finishes.

Today there will be a Saturn rocket launch so please do not shoot into the air any spacecraft until everyone is clear from about 30 ft. of the launch pad and after counting down and that the SKY is clear from all airplanes, UFOs, and little birdies. We do not want to see Tweety as fried chicken. Also heed the Semper Hydrate slogans because if you get dehydrated you will be bed-ridden in the medical bay area and force fed those "heavenly" Osmotic Raisins. Also please do not make immature jokes about the slogan "Semper Hy! Drink or die!" Again follow the rules for the Rappel Tower and the Obstacle course. Enjoy encampment by not getting injured or killed. You can do it another time.

Remember,

Semper Hydrate!

Semper Hy! Drink or die!

FIELD OPS!

The advanced and basic ground team flights departed the kitchen area on a two-mile hike into the depths of Camp Butner for an overnight exercise. The purpose of the exercise is to train in a wilderness environment and practice such skills as setting up FESs (Field Expedient Shelters), survival, and land

navigation (day and night). The operations are being coordinated from the en-

campment headquarters via the communications 'shack' which is a former FEMA trailer once used during the Hurricane Katrina response.

Capt Fred Draper briefs Mission Radio Operator trainees on proper procedures while taking radio call-ins from units in the field. One of the most important tasks a Ground Team Member must master is being able to set up a shelter from scratch.

There is no limit to the imagination when setting up a shelter. The fashion this year is the 'lean-to' type of shelter using the ever versatile military poncho, in the ever favored color coordinated scheme of woodland Camo. At least one shelter went "native".

STAFF WELCOME

Captain Lyerly

Capt. Lyerly is one of the encampments medical staff. He is an MD and a military retiree who served for 26 years. He says that encampment is busy but enjoyable. He pretty much is a believer in hard work and good fun.
